

# To Do List for Nurses Seeking a License Reinstatement in Texas

If a nurse voluntarily surrendered their nursing license or had their license revoked as a result of a criminal charge, the following information would assist your lawyer in helping reinstate your license:

- All documents surrounding the arrest(s). These could include the charging documents, judgement, probation documents, or any other disposition documents such as motions to reduce the charge or dismissals.
- A statement from the candidate explaining the circumstances surrounding the arrest/conviction as well as why they want to have their license reinstated.
- Letters of recommendation.
